## Homework # 19

For your work this week you will need Mom or Dad, a pencil, and your eyes.

1. Pick a room in your house and sit down with Mom/Dad. Look around the room carefully. Tell Mom/Dad all the things you can see. Have her/him write down the names of everything you see. (use the back of this paper)
2. Stay in the same room. Look around the room again, carefully. Now, hide your eyes so that you can no longer see what is in the room. Keep your eyes closed, and tell Mom/Dad everything you can remember seeing. Have her/him write down everything you can remember seeing.
